

DUIROLIFT

FORK MOUNTED EXTENDING JIB

Features

Painted bright yellow for safety

Supplied with TWO swivel hooks

*Hook can be positioned along the main jib
mount and at the end of the extension*

*Fork heel pins for safe attachment to the
fork truck*

Model : DL-32

The Fork Mounted Extending Jib allows the transport of long loads. Two hooks enable loads to be slung at greater centres than with a conventional fixed jib.
Closed Length = 2000 mm : Extended Length = 3000 mm
