

DUIROLIFT

LOW PROFILE FORK MOUNTED EXTENDING JIB

Features

Painted bright yellow for safety

Supplied with TWO swivel hooks

Hook can be positioned along the main jib mount and at the end of the extension

Fork heel pins for safe attachment to the fork truck

Model : DL-33

The Low Profile Extending Jib (Tele-Liner) has a long reach, can transport long loads and is useful where there is a height restriction. Two hooks are supplied enabling loads to be slung at greater centres than with a conventional fixed jib.

Closed Length = 2000 mm : Extended Length = 3000 mm
